iRobot® Scooba®

Floor Washing Robot

The world's most compact floor washing robot, the iRobot Scooba® 230 scrubs your tile, linoleum and sealed hardwood floors. At 6.5 inches in diameter and 3.5 inches tall, the robot easily cleans in tight spaces, including under and around cabinets, furniture and bathroom fixtures.

Its iAdapt™ Responsive Cleaning Technology ensures Scooba washes every part of your floor multiple times. Scooba 230 never uses dirty water to wash your floors. Its cleaning system uses an active reservoir that keeps clean solution and dirty water separate. As the robot cleans, the active reservoir shrinks in size as cleaning solution is put down on the floor, freeing up space in the robot to hold the dirty water that is picked up.

iRobot Scooba 230 + Essentials Kit costs $299.99.

- Scooba 230 is easy to use: just hit the Clean button and the robot does the dirty work!
- Scooba 230 is specifically designed for tighter and hard-to-reach areas.
- Intelligently navigates the room using iAdapt Responsive Cleaning Technology, a suite of software and sensors that respond to your home environment and ensure a thorough clean.
- An advanced fluid management system keeps clean solution and dirty water separate inside the robot, ensuring you will never clean with dirty water.
- Scrubbing brushes loosen stains and dirt from the floor surface.
- Cliff sensor technology keeps Scooba 230 from falling down stairs and other vertical drops.
- Virtual Wall® technology keeps Scooba 230 in the rooms you want to clean and out of those you don't.
- The bottom plate of the robot snaps on and off without tools, making it fast and easy to rinse the scrubbing brushes and the squeegee after each use.

Three-Stage Cleaning Process

- **Wash** – uses a clean solution to wash floors.
- **Scrub** – brushes remove dirt, grime, and stuck on messes.
- **Squeegee** – lifts dirty water leaving clean, virtually dry floors.
